

Supply Chain Mavens Inc.

Empowering People, Productivity & Profits

The CLTD program is now available for Virtual Delivery!

Scope: CLTD covers concepts, tools and processes which illustrate the supply chain-wide system perspective of logistics. CLTD emphasizes the microanalysis of logistics, distribution and transportation services. Managing a logistics system requires monitoring the processes of transportation, order processing, inventory and the combination of warehousing, material handling and packaging. All these components are integrated through a network of facilities with a goal to support customer service, manufacturing and purchasing operational requirements.

Who Should Attend? Industry newcomers, logistics professionals, importers and exporters, 3PLs and 4PLs will learn the latest technologies and LTD trends.

Anyone active in daily management of warehousing or working within a multi-level distribution network will benefit from the best practices presented in this workshop, as will anyone involved in the transportation modes of trucking, rail, ocean, airline, pipeline, intermodal, omnichannel and eCommerce fulfillment.

Cost: Students should bring highlighters and a calculator with square root function to every session. ***Substantial pre-course Reading Assignments are required for every session, including the first.***

Registration fee of **\$2825 member/\$3045 new member bundle** includes tuition and exam fee plus the following materials:

CLTD Learning System
CLTD Slide Deck
Online study tools access for 1 year
CLTD Exam credit **(valid for 6 months)**

Curriculum: Classes are highly interactive, with reading assignments, exercises, discussions, games, online quizzes, demos, video clips, websites plus several study tools. The 40 hours cover:

1. Logistics Fundamentals
2. Logistics Network Design
3. Sustainability & Reverse Logistics
4. Capacity Planning & Demand Management
5. Order Management
6. Inventory Management
7. Warehouse Management
8. Transportation
9. Global Logistics Considerations
