

CTSC

CERTIFIED IN TRANSFORMATION FOR SUPPLY CHAIN

Prepare for your APICS CTSC Exam with Expert Guidance

The APICS Certified in Transformation for Supply Chain (CTSC) covers the ASCM standards, processes, models and frameworks, as well as industry best practices, tools, and technologies commonly applied to manage end-to-end supply chain transformation.

Upon successful completion of the CTSC program, learners will have the necessary skills to develop an effective supply chain strategy and enable an organizational transformation through case studies from globally recognized organizations.

The CTSC body of knowledge leverages components of ASCM's globally recognized standards, including SCOR DS, Enterprise Standards for Sustainability and the Digital Capabilities Model (DCM) to:

- Develop, deploy and manage change for a successful supply chain transformation
- Identify risks and opportunities, and select the appropriate philosophies, frameworks, models, and approaches to effect transformation
- Apply systems thinking to develop, analyze, verify and validate concept alternatives for transformation
- Manage and align processes and capabilities with strategic transformation goals
- Manage skills, roles, responsibilities and infrastructure needed for a supply chain transformation
- Identify tools and technologies to enable effective supply chain transformation
- Identify and implement strategies for reinforcing and replicating improvements

INSTRUCTOR-LED COURSES

EXPERT LEADERSHIP AND GUIDANCE

Join a course with an experienced instructor

Our certification preparation courses utilize the APICS CTSC Learning System that an instructor will guide you through.

BENEFITS OF AN INSTRUCTOR-LED COURSE

- Learn from an experienced instructor who provides expertise, insights, and one-on-one guidance
- Network, share experiences, and discuss topics with a diverse group of professionals
- Stay on track to earn your certification with a structured learning experience

In addition to the guidance, you will receive in the classroom, you will also receive the APICS CTSC Learning System which provides the most comprehensive, effective and up-to-date exam preparation tools available. The online platform includes learning activities, a personalized study experience, practice exam questions and convenient access to reading materials.

Technical and digital transformation skills are among the top five critical skills to success as a supply chain professional.

PREPARATION DESIGNED FOR SUCCESS

The CTSC Learning System and preparation courses are broken down into 4 modules.

Module 1: Supply Chain Transformation Overview

Module 2: Preparing for Supply Chain Transformation

Module 3: Executing Supply Chain Transformation

Module 4: Review of Supply Chain Transformation

The CTSC exam is a computer-based exam consisting of 150 multiple choice questions answered within 3.5 hours. APICS Instructors have helped professionals all around the globe prepare successfully for their certification exams.

HOW WILL I STUDY?

The CTSC Learning System incorporates three components to help you apply the concepts and test your understanding and retention of the information.

- **Assess:** take a Pre-test to gain baseline knowledge
- **Study:** read the CTSC content, watch videos, take quizzes, use flashcards
- **Practice:** take an exam that emulates the real-life exam experience

Begin preparing for your CTSC certification today!

The CTSC content is integrated with best practices in the day-to-day function of transformation professionals that drive the improvement that is necessary to maximize an organization's efficiency and impact the bottom line.
